ANDTEX ANNOUNCES TRADESHOW POSTPONEMENT TO 2021

Bethesda, MD (August 17, 2020) - Given the impact COVID-19 has had across the globe, **Southeast Asia Nonwovens and Hygiene Technology Exhibition & Conference (ANDTEX)** organizer E.J. Krause & Associates has decided it is in the best interest of all participants to postpone this year's in-person event until May 26-28, 2021.

"While business events and conferences are critical to the development of the industry, the health and wellness of our participants remain our top priority. After consulting with key stakeholders and local partners, we have decided to take a proactive approach and postpone the upcoming November event to May 2021. We look forward to welcoming the Southeast Asian nonwovens industry back together this spring. We believe this move will enhance the value and productivity of the event for all our participants," said show organizer Ned Krause of E.J. Krause & Associates.

The three-day event will continue to take place at the Bangkok International Trade and Exhibition Center (BITEC) in Thailand.

E.J. Krause & Associates and the **ANDTEX** team are fully committed to providing a successful and powerful platform this spring. Demand for nonwovens products is increasing in all regions. The new dates for **ANDTEX** will ensure all industry participants are able to safely meet and share innovative ideas, launch new products, advance new opportunities, and conduct a productive business event.

ANDTEX is supported by the Thai Nonwoven Fabrics Industry Trade Association (TNFA), Asia Nonwoven Fabrics Association (ANFA), All Nippon Nonwovens Association (ANNA), Indonesian Nonwoven Association (INWA), Taiwan Nonwoven Fabrics Industry Association (TNFIA), Hong Kong Nonwovens Association (HKNA), Thai Man-Made Fiber Industries Association (TMFA), Ministry of Industry (MOI), and Thailand Convention and Exhibition Bureau (TCEB) and more.

We will be working closely with all participants to provide the necessary support for the change. Please follow the show website for current updates: www.andtex.com
